LEED Compliance Information

Wallshell® Thermal Panoply™ Panel

This is to confirm that Wallshell® Thermal Panoply™ paneling system guarantees an environments. The top quality building system which meets high meets high ecological standard. We design our production processes so that energy usage and hazardous material production is kept as low as possible, and with its extended durability, our products improve both the ecological as well as economic balance of every building shell.

The recycled content respectively based on the following product categories:

System Components	Pre Consumer Recycled Content %	Post Consumer Recycled Content %
Carrier Board	0%	77%
Insulation Board	0%	40%
Backboard	0%	0%
L-profile Clip (Galvanized Steel)	0%	25%
T-profile Clip (Galvanized Steel)	0%	25%
L-profile Rail (Galvanized Steel)	0%	35%
L-profile Bracket (Galvanized Steel)	0%	25%
L-profile Clip (Stainless Steel)	0%	50%
T-profile Clip (Stainless Steel)	0%	50%
L-profile Rail (Stainless Steel)	0%	50%
L-profile Bracket (Stainless Steel)	0%	50%
Adjuster	0%	0%
Fastener	5%	6%
Surfactant	0%	0%
Mortar	0%	0%
Joint Sealant	0%	0%
Edge Sealant	0%	0%
Capping	0%	35%
Air-Bleed Plug	0%	0%
Insulation Strip	0%	0%

The above composite percentages by weight are the official corporate statement of recycled material percentages for the above-mentioned products.
